

Accessibility Conformance Summary (VPAT-aligned)

Catalyst Ed™ · WCAG 2.1 AA Conformance Snapshot · Last updated: May 2026

Standard

Catalyst Ed targets WCAG 2.1 Level AA conformance across the learner-facing platform. This summary is aligned with the structure of a Voluntary Product Accessibility Template (VPAT 2.4) and is provided in advance of a fully completed VPAT.

Conformance Snapshot

Keyboard navigation: Supports. Semantic landmarks and headings: Supports. Color contrast for body text and primary CTAs: Supports. Form labeling and error messaging: Supports. Screen-reader announcements for asynchronous content: Partially supports — under active improvement.

Known Gaps

Some third-party embedded media (where used) inherits the upstream caption availability. Catalyst Ed prefers self-hosted captioned media wherever feasible.

Requesting the Full VPAT

A completed VPAT 2.4 Rev 508 document is provided on request for district and university procurement. Contact info@catalyst-ed.app.

This summary is a public-facing overview. The full document is available on request to info@catalyst-ed.app. © CatalystEd LLC.
